

## History

Our CHAPS Program was started to provide high quality child care for the children of working parents. This option is available to all families, regardless of income. We serve children from 15 months through grade 7 throughout the town. We provide a kindergarten extended day program to families attending the Hubert Kindergarten Center in Hudson. All programs are licensed by the Massachusetts Department of Early Education and Care.

## School Philosophy

The focus of the CHAPS Early Childhood Center is to provide a safe, stimulating, and enjoyable school experience for young children. The school's philosophy and objectives are child centered and designed to stimulate a child's language, social and thinking skills through meeting the individual needs of each child as well as providing opportunities for small and large group experiences.

Our program will take advantage of natural learning situations as well as more structured learning experiences while considering the wide range of developmental levels among children. We provide opportunities for children to develop a positive self image, social skills and creative expression. We emphasize learning through experience as well as direct instruction.

Art, music, math, imaginative play, language arts, reading, natural science and movement activities are some of the areas that the children will have an opportunity to experience.

The teachers plan and prepare experiences for small and large group activities that consider all developmental areas...physical, social, emotional and intellectual.
